## Optimize the space

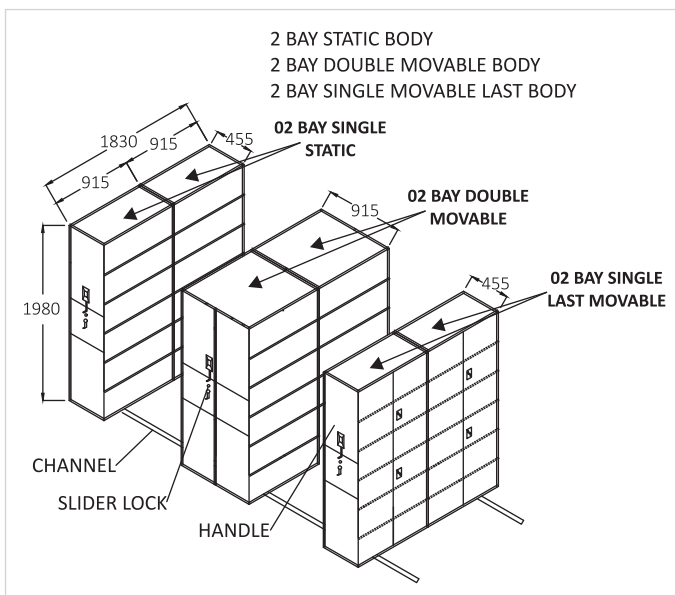

Mobile storage systems are three times more space efficient than conventional filing and shelving at half the cost.

When storage needs outgrow available space, the problem usually tackled with a move to larger premises, an expensive option. But there is an alternative, you can increase storage efficiently with a mobile shelving system, that :

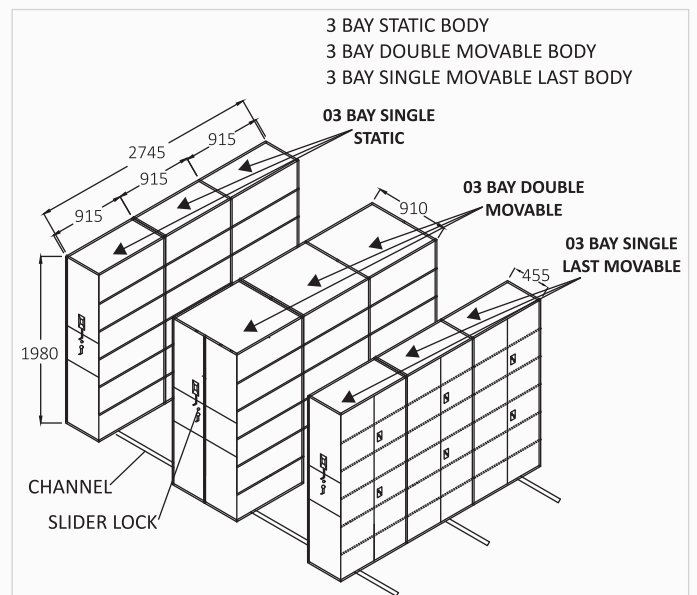

- A. Saves Money
- B. Boost Efficiency
- C. Improves your Working Environment

## Push Pull Type Compactors

The system can be opened by pushing handles left or right. Ideal for smaller, low activity, limited-access storage areas.
